

## **Chairperson's report 2019**

2019 was the thirteenth year as a club which continuing to progress and grow in experience

Total membership remains similar to previous years and it is good to continue to see newer members attending regular training sessions and becoming established. It is also good to see the progression and enthusiasm of our juniors and their families. Their success in the West Midlands Triathlon Awards is evidence of this. Their support of each other is a joy to behold and it is pleasing to see this supportive attitude also amongst the adult members

This year the club achieved the award for Triathlon England club of the year which is a testament to those instrumental in setting up the club and laying the foundations on which the club has been built and progressed. Huge thanks go to all those committee members, coaches and everyone else through the years who have freely given their time, dedication and experience to get the club to this position.

The Management Committee will continue to be open to the views and opinions of its members to ensure that the club continues to meet the changing needs of the membership and the governing bodies.

We will always face challenges as a club as we continue to evolve. This year the committee took swift action following a test of our safeguarding policies and lessons learned from the experience will ensure that they remain as tight as possible.

I believe the club to be in excellent health as we continue to progress.

Karen Dennett

NTC Chairperson
